Glossary

Average Estimated Loss-Adjusted Yield represents the advisors estimate of the yield on the current portfolio taking into account the make up of the portfolio and market conditions as of the report date. Given the complexity of certain bonds that may be in the portfolio, estimates may be used as traditional bond calculators and models may not provide accurate yield results as it relates to certain bonds in the portfolio. **Bloomberg US Aggregate TR Index** is a market capitalization-weighted index that is designed to measure the performance of the U.S. investment grade bond market with maturities of more than one year. **Bloomberg US Aggregate TR EUR Hedged** is a broad, investment-grade U.S. bond market benchmark, translated into euro terms with currency risk removed. **Effective Duration** calculates the expected price decline for a bond when interest rates rise by 1%. When all other factors are equal, the longer the maturity of a bond, the larger the effective duration. **High Watermark** is where a performance fee is only payable on the basis of achieving a new highest net asset value per share, as further described in the Fund supplement. **Risk Profile** is the risk indicator is based on the volatility of the Fund's performance over the last 5 years. Where 5 years performance history is not available, the data is supplemented by proxy fund, benchmark data or a simulated historical series, as appropriate. This profile is determined using historical data and, as such, may not be a reliable indication of the future risk profile. It is not guaranteed and may shift over time. The lowest category does not mean 'risk free.'

Risks

Market Risk: The risk that the market will go down in value, with the possibility that such changes will be sharp and unpredictable. **Currency Risk:** The Fund may attempt to use Financial Derivatives Instruments (FDIs) to hedge against currency movements, however there is no guarantee that any attempts at hedging will be successful. **Operational Risk (including safekeeping of assets):** The Fund and its assets may experience material losses as a result of technology/system failures, human error, policy breaches, and/or incorrect valuation of units. Social, political and economic developments and laws differ between regions. **Derivatives Risk:** The Fund may invest in FDIs to hedge against risk and/or for efficient portfolio management. There is no guarantee that the Fund's use of FDIs for either purpose will be successful. FDIs are subject to counterparty risk (including potential loss of instruments) and are highly sensitive to underlying price movements, interest rates and market volatility, and therefore come with a greater risk. **Credit Risk:** The Fund may be adversely affected if the issuer of a debt instrument fails to meet its repayment obligations. Corporate debt may be subject to credit rating downgrades, which may result in the Fund experiencing losses. Sovereign debt is subject to the risk of the governmental entity being unable to meet principal and interest payments. By purchasing debt instruments, the Fund will assume this interest risk. Non-Investment grade investments have greater price volatility, loss of principal and interest, default and liquidity risks than higher rated securities. **Concentration Risk:** The Fund's portfolio will be highly concentrated in the real estate sector of the U.S. Such concentration may increase the losses suffered by the Fund or reduce its ability to hedge its exposure and to dispose of depreciating assets. The lack of diversification across the Fund's portfolio may increase the losses suffered by the Fund if the real estate sector were to suffer a downturn. **Interest Rate Risk:** Fixed income securities, including the prices of securities held by the Fund, will decline over short or long periods of time due to rising interest rates. Fixed income securities with longer maturities tend to be more sensitive to interest rates than fixed income securities with shorter maturities. **Liquidity Risk:** The Fund may invest in securities which may, due to negative market conditions, become difficult to sell or may need to be sold at an unfavourable price. This may affect the overall value of the Fund.

The ICAV is an open-ended Irish collective asset-management vehicle which is constituted as an umbrella fund with segregated liability between sub-funds and with variable capital.

The Manager of the ICAV is Carne Global Fund Managers (Ireland) Limited (the Manager), a company regulated by the Central Bank of Ireland.

This fact sheet is directed mainly at professional and institutional clients who possess the necessary experience, knowledge and expertise to make their own investment decisions and properly assess the risks involved in an investment. The information contained in this fact sheet is not directed at, or intended for distribution to, any person (or entity) who is a citizen or resident, (located or established) in any country or jurisdiction where the use of the fact sheet or distribution of the fact sheet information would be contrary to applicable laws or regulations. The fact sheet does not constitute, and may not be used for the purpose of, an offer or solicitation to invest in any jurisdiction or in any circumstances in which such offer or solicitation is unlawful or not authorised, or in which the person making such offer or solicitation is not qualified to do so. The ICAV, the Manager or their respective delegates may terminate arrangements made for the marketing or placement of any shares in a sub-fund of the ICAV in any jurisdiction in accordance with the requirements of applicable laws and regulation.

Information in this fact sheet was obtained from various sources and the ICAV, Manager, Investment Manager and Sub-Investment Manager do not guarantee its accuracy.

The information is for your private use and discussion purposes only, and expressed views and opinions may change.

Investment in shares of any sub-fund of the ICAV is subject to risks. Potential investors should read the Prospectus, relevant Fund Supplement, and Key Investor Information Document, paying particular attention to the sections related to risk factors and risks, before making any investment decisions. Carne Global Fund Managers (Ireland) Limited, as manager of the ICAV, may terminate the arrangements made for the marketing of the Fund.

Your investment may also be subject to currency risk, interest rate risk, as well as market fluctuations. Consequently, an investor may not get back a sum equal to the amount originally invested.

Where provided for in the Prospectus, relevant Fund Supplement, and Key Investor Information Document, a sub-fund of the ICAV may utilise Over the Counter or Exchange Traded derivative instruments for hedging or investment purposes. Transactions in derivative instruments involve a risk of loss or depreciation of capital due to adverse changes in security prices, exchange rates or interest rates, or, in the case of Over the Counter instruments, default of the Counterparty. An investment in a sub-fund of the ICAV that may make such investments may not be suitable for all types of investors. It is recommended that you consult with your professional advisors before making an investment.

The fact sheet, or any document referred to in this fact sheet, is not intended to contain, and should not be regarded as containing, advice relating to legal, taxation, investment or any other matters. The fact sheet may not be adequate for the needs, profile and experience of each individual investor. Each prospective investor should consult with their own professional advisers as to any legal, economic, or tax implications and related aspects which may be relevant to the purchase, holding or disposal of shares in one or more sub-funds and as to suitability of an investment for such investor. The levels and bases of taxation are dependent on individual circumstances and subject to changes, and therefore it is highly recommended that you consult a professional tax advisor.

If this communication is being provided to you by an unaffiliated third-party placement agent (a "Placement Agent"), certain statements regarding the qualities, expertise or capabilities of the Adviser, or any of the Adviser's services, private funds or supervised persons, may be considered an endorsement. Prospective investors are therefore advised of the following disclosure items. The Placement Agent is not a current client of the Adviser (together with its affiliates, the "Fund Sponsor"), and is not an investor in the Fund, although it is possible that one or more affiliates of the Placement Agent or employees of the Placement Agent or its affiliates may be, or may subsequently become, a client of the Fund Sponsor or an investor in the Fund. The Placement Agent will receive cash compensation from the Fund Sponsor for its activities as placement agent, including a percentage of the fees received by the Fund Sponsor and/or reimbursement of certain expenses incurred with respect to the introduction of investors to the Fund Sponsor and/or the Fund. The compensation arrangement is subject to certain conditions, including that you make one or more investments, and subsequently remain invested, in the Fund. The Placement Agent and its affiliates may have additional relationships with the Fund Sponsor or other investment vehicles managed by the Fund Sponsor. The payment of cash compensation to the Placement Agent, and any additional relationships that the Placement Agent or its affiliates may have with the Fund Sponsor or other investment vehicles managed by the Fund Sponsor, create material conflicts of interest for the Placement Agent in its role as placement agent; in this regard, the compensation Placement Agent earns or expects to earn from the Adviser could be a factor in the Placement Agent endorsing the Adviser and/or the Fund and recommending that you maintain an investment in the Fund.
